on:

Social services - a pillar of European society

4 December 2014 r.

Circled above problems we propose to refer to the social environments in order to identify contemporary challenges and dilemmas of social work, helping to seek and take up new forms of work in the area. How much capacity for a particular kind of reflection, reflection in action and reflection on action.

Current determine the feasibility of formulating and solving social problems, should contribute to a critical overview and practical improvements, based on the constant asking yourself basic questions: What is important in social work, in such a rapidly changing world? How can you get to know and understand the needs of social work? How to effectively organize the training of social workers?
