PAYS DE VAUCLUSE

CENTRE MEDITERRANEEN DE L'ENVIRONNEMENT

L'Isle sur la Sorgue, April 2016

Dear Madam, Dear Sir,

We are pleased to send you this poster **about volunteering activities for summer 2016 organised by our association, the Union APARE-CME.** They are open to anyone wanting to get involved in a collective project **in the fields of heritage, environment, and sustainable development** and include:

-International volunteer workcamps in the South of France and Greece, in partnership with national, regional and local authorities. In all, there are **12 workcamps (2 are 16 - 17 year olds)** offering participants the chance to discover a wonderful regional heritage and to enjoy a unique human experience in an international group.

-Euro-Mediterranean Campuses for the Environment and Sustainable Development. These give **students and young professionals** the opportunity to contribute to a local community project, to supplement their training and develop their professional experience as a member of an international multi-disciplinary team. **1 campus is on offer this summer in Greece : "Mapping walking trails in the region of Olympus-Kissavos.**

The Union APARE-CME also offers other activities all year round such as **dry stone construction training courses.**

Knowing your interest for the initiatives developed by our association in the past, **we are counting on your support to disseminate and promote these documents, especially to students and young people.** If you would like more posters or our activity programmes, please contact us at the address indicated below.
All our documentation is available on our website.

We look forward to your cooperation.

Yours faithfully,

Matthieu GUARY
Director General

Jean-Baptiste LANASPEZE
President of Union APARE-CME
