THE PHILOSOPHER
UNIVERSITY
IN NITRA

- **WE CONNECT NATURAL SCIENCES, MATHEMATICS AND INFORMATICS**
We are a modern faculty that actively connects scientific research and higher education only in accredited study programs in the fields of natural sciences, mathematics, informatics and economics.
- **MODERN STUDY PROGRAMS**
We offer modern professional study programs in biology, informatics, environmental studies, mathematics, physics and geography, which reflect the current requirements of practice. In teacher study programs, we offer the widest range of double-major programs of natural science subjects, mathematics and informatics in combination with language, art, technical, humanities and social science subjects.
- **WE CREATE PROFESSIONAL CONDITIONS FOR STUDY**
We provide education in modern classrooms and biological, informatics, physics and chemical laboratories with unique instruments equipment, where our students work under the guidance of experienced experts.

- **WE SUPPORT CREATIVITY**
We regularly involve students in international and domestic projects. By presenting the results at professional events at home and abroad, we help students start a career as a researcher and start an own business.
- **WE DEVELOP INTERNATIONAL EXPERIENCES**
Every year, we provide sufficient mobility opportunities for all those interested in studying and doing an internship abroad, thanks to which our students gain invaluable experience.
- **WE MOTIVATE STUDENTS**
Our students of selected study programs regularly receive motivational scholarships to support their further studies.
- **WE EMPHASIZE EMPLOYMENT**
By supporting professional and pedagogical practice directly in cooperation with potential employers, we create favorable conditions for the employment of our graduates on the labor market.
